**Time watermarks:** video files with time watermarks. it can be modified, we did not adjust the time of equipments when it came from factory, if you found it is not accurate , it's easy to adjust by yourself, just use the USB cable and connect the equipment to the computer, at the same time, run the CD-ROM, copy the file "Time.txt" into root directory of USB Flash Disk, then pull out device from computer, and the file "Time.txt" will be also deleted by itself, then restart and power off once. The modification of time is finished.

## PC Camera:

Press the ② key and insert the computer USB, then you can enter the PC Camera Mode.

Charging: In the course of using, if red light twinkling constantly, that means the electric volume of the host is low, the machine with the standard USB2.0 interface, can use computer USB port to recharge, can also use DC5V charger to recharge; if the red light is twinkling, it means it is charging. When red light stops twinkling and then keeps on, it means the recharging finished. please pull out the machine from computer in time, to prevent batteries being damaged.

## FAQ:

Q: Why it does not have any response after pressing the ① and ② button continuously.

A: Because all operation needs going back to the standby mode, then we can do the next step. The particular operation is written in the manual.

Q: Why the time watermark is not accurate enough after updating the system time?

A: Because the battery support the working of system time. Please do not exhaust the battery and charge the battery in time, or keep the battery full and adjust the time before you use it.

Q: Why I can not find the mobile hard disk after the equipment is connected to the computer?

A: Please confirm your computer's operating system. It can identify and install the correspond drivers automatically in WINDOWS98/SE/ME/2000/XP/MAC OS/LINUX. WINDOWS98 system need to install drivers which is recorded in the CD-ROM.

Q: Why the picture is not so clear?

A: The equipment does not possess the function of preventing free of shaking, Please keep your hands and the object do not shake.
